

Steve Jordan is President of Jordan Consulting Group, focusing on strategic consulting for technology companies and venture funded startups. He serves as an elected Director of Purissima Hills Water District (PHWD), and as a Director of the Bay Area Water Conservation and Supply Agency (BAWSCA). He also serves as Chairman of the IEEE Power and Energy Society chapter in Santa Clara Valley, where he organized several highly successful power and AI data center seminars. He led PHWD's early adoption of Advanced Metering Infrastructure (aka Smart Meters), as well as acoustic leak detection equipment, which have helped reduce water usage over 20%. Previously he led WaterCity, Inc. which installed on-site water recycling systems for heavy commercial water users. He was VP of Engineering at Poqet Computer where he led the design and introduction of the first DOS-compatible handheld PC. He previously served in management roles at Fairchild Semiconductor Co., Daisy Systems and Mostek, an early semiconductor memory innovator. He consulted for technology businesses for over 25 years, with a focus on developing successful growth strategies for both Fortune 100 companies and venture funded startups. He was a Partner with R. B. Webber and Co. (RBW), a leading Silicon Valley technology strategy management consulting firm, and previously consulted with McKinsey and Co. in its technology practice. He earned a BS in Electrical Engineering and a BS in Economics at MIT, and an MBA at Harvard Business School.
